District leaders declare ATN officially open!

It was a quiet, low key, celebration yesterday as community leaders and friends, joined the founding members of Africa Transformation Network to officially open our ministry center in Kicukiro district of Kigali, Rwanda. About 45 people listened to a presentation of the purposes and goals of African Transformation Network and then remained for refreshments and a tour of the facility.

The center will house the offices of ATN and Xtra Mile Ministries. A variety of ministries and projects will be based at the center

including blessing our community in Jesus' name through projects for marginalized women, youth and sports programs, outreach to orphans in Kigali and in the provinces and English language courses for school teachers in the district. Early in 2009, it is anticipated that computer training will be also be offered.
